TWIST, HANG, HUNT.

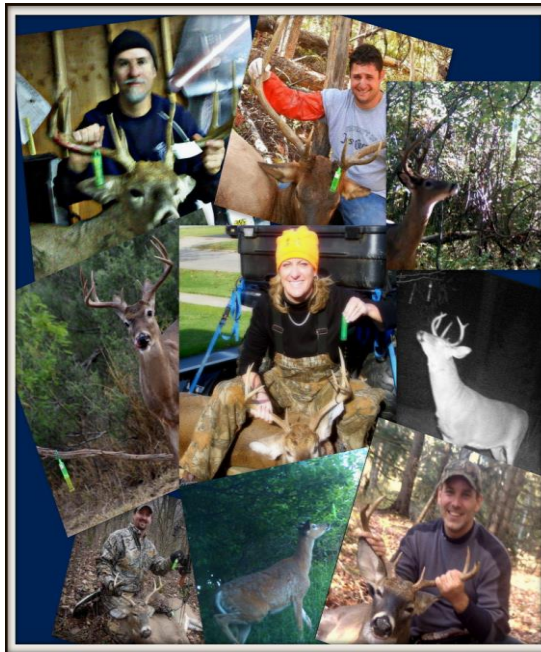

About EverScent™

EverScent™ is a game scent first and foremost. All of our scent packs (3 **EverScent™** tubes) contain approximately 2 oz. of natural urine, glandular fluid or natural food scents.

EverScent™ gel crystals absorb the fluid and are slow to dissipate. This gives you a long lasting, no mess scent system in a super easy to use container. Twist open the **EverScent™** tube to expose the vents & let out the scent, hang it and you're ready to hunt.

Want to add your own scent? Try **EverScent™ Choice**. You get the same no mess system but instead of pre-infused gel crystals there is super absorbent wick with a protected end allowing you to cleanly remove and re-hydrate the wick with the included eyedropper. A no-fray band ensures the wick can be used time and time again.

(1) Closed and sealed (2) Open gel (3) Open Choice

Proven Results

While **EverScent™** is fairly new to the market, there are proven results and testimonials from all over the US and Canada.

Scent Variety

Whitetail deer is our main focus, we provide Doe Estrus, Dominant Buck, Doe Urine, Enticer All Season (a 12 ingredient glandular, urine and food based scent) & Elixir #9. Our Acorn and Apple based scents are successful for curiosity and cover. We also provide wild hog (food and urine based) as well as Elk scents.

How to Purchase

EverScent™ is easy to purchase, go to our secure online store at www.sigmaoutdoors.com

Dealers contact sales@sigmaoutdoors.com for pricing information.
